

# LEADERSHIP PROGRAM

## FACULTY OF ENGINEERING 2009

An engineering education is more than passing a set number of subjects. There is a set of generic skills which characterises the educated professional engineer. These include communication skills and cultural understanding as well as technical knowledge in engineering and management.

With the aim of enhancing the educational experience of undergraduate students within the UNSW Faculty of Engineering, the Dean offers full-time students on the 2009 Dean's Honours List who are currently undertaking Year 3 the opportunity to enrol in a Leadership Day Workshop.

### Leadership Day Workshop

At the request of the Faculty of Engineering, staff of the UNSW Counselling Service (including a registered psychologist and the Peer Mentoring Coordinator) have agreed to provide one-day intermediate level workshops covering the following topics:

- Theories of Leadership
- Leadership Qualities
- Communicating as a Leader
- Delegation and Empowerment
- Motivation
- S.M.A.R.T Goal Setting
- Conflict and Negotiation
- Ethics and Values

Two Leadership Day Workshops have been scheduled (see dates below), with each limited to 30 places.

To register please send an email to [bronywnward@unsw.edu.au](mailto:bronywnward@unsw.edu.au) clearly indicating your name, student number, and preferred workshop date.

**Registrations close 3 working days prior to the workshop date.**

**Time:** 9:15am to 4:00pm

**Date:** Select one of the following:

#### *Semester Two*

Friday 18 September 2009 (UNSW venue to be advised)

Friday 25 September 2009 (UNSW venue to be advised)
